

MARIPOSA

The wines Mariposa are made in a natural way, preserving the most of the natural aromas, flavours and natural acidity of the grapes of the Dao region. They are light and fresh, to drink young, but still with a good aging potential, which is a characteristic of the wines of the region. They are modern, but carry the character of Dao region.

2021 HARVEST. It was a cool and rainy year, good because the vines suffer less stress and manage to maintain a good vegetation cover. At the time of the harvest, the wide daily temperature ranges provided excellent maturation, with a great balance of acids and a very homogeneous maturation. The absence of rain in the pre-harvest period allowed a harvest of healthy grapes.

VINIFICATION. The grapes were harvested manually into small 20Kg boxes. The grapes were cooled at the entrance to the cellar and immediately pressed. The resulting must was decanted in stainless steel vats at low temperature and then fermented in stainless steel vats at a controlled temperature. This wine was only aged in stainless steel, to preserve all the natural aromas and flavors of the grapes from which it was made.

QUINTA DA
MARIPOSA

Type. rose wine
Region. Dão
